Better Weather Is a Stimulant to Retail Distribution and Dun's Agency Sees Good Things Ahead.

NEW YORK, April 1 .- R. G. Dun & Co.'s weekly review of trade to-morrow will say: Much deferred Eastern business was transacted during the last few days and some sections report satisfactory results, but at many points the weather is not yet normal, and, on the whole, ably with last year's volume.

Manufacturing returns continue conflicting, iron and steel plants gaining ground, footwear precedented production in 1903, while textile mills have much idle machinery and little forward business to encourage operation.

Agricultural prospects are unchanged, better

weather conditions at some points being offset by less favorable news from other regions, and the price situation is extremely irregular. PROGRESS NOTED IN IRON AND STEEL. Further progress in the right direction is reported in the iron and steel industry. Pig iron than any day this week, and really very small, is in better demand, quotations for Bessemer advancing slightly, and the outlook for sufficient supplies of coke has improved, due to less traific congestion and more prompt transscarce, and prices for this department were no higher relatively than in the other departments. portation from the ovens to the furnaces. The Southern Pacific has just discovered a widespread conspiracy, which is said to have been going on for years and to have defrauded the company of many thousands of dollars. Arrests have been made and prosecutions will follow. Under the construction of a state law a railroad ticket is transferable, and this fact, together with the stop-over privilege which each piece of pasteboard carried, had been taken advantage of by a number of persons in reissuing tickets at a cut rate for transportation second time over the same route for which they were originally bought.

General Freight Agent Stohr, of the Chicago Great Western, expects some interesting information to develop in the rate war | between Western roads before a truce is under consideration, but there has been no joint action of the lines to close the way and no action which would make it impossible to follow out these plans.
